📍 Bangalore , India

SUMMARY

I'm a dedicated software developer with a strong foundation in full-stack development. My expertise lies in building responsive and interactive front-end applications using **React**, and developing efficient and scalable back-end systems with **Express** and **Java**. With a passion for crafting seamless user experiences and robust server-side solutions, I thrive on solving complex challenges and contributing to impactful projects. I'm always eager to learn and grow, leveraging my skills to drive innovation and deliver high-quality software solutions.

EXPERIENCE

Software Engineer Backend

Fatcat Innovation

📅 05/2024 - 09/2024   📍 Bangalore, India

Company Description

- Developed a **CRUD application** using **JDBC Template**, enabling efficient database operations. Designed APIs for **exporting data to Excel** and for visualizing data in **graph or pie chart** formats. Created and managed **multiple tables and views**, optimizing database structure for better performance and usability

Software Engineer

SPARK Foundation

📅 02/2024 - 04/2024   📍 Remote

created a banking management system

- As a **Student Intern** at The Sparks Foundation, I developed a functional web project using **HTML, CSS, JavaScript**, and **Java** as backend . This experience enhanced my skills in **web development**, **problem-solving**, and **collaboration** while applying practical solutions to real-world use cases.

Full stack Engineer trainee

neogcamp

📅 05/2023 - 11/2023   📍 Remote

NeoG Camp is a hands-on learning platform focused on transforming passionate learners into skilled developers

- I completed comprehensive training in the **MERN stack** at NeoG Camp, where I mastered **React** for building dynamic and responsive front-end applications. I gained hands-on experience in designing scalable APIs and implementing server-side logic using **Node.js** and **Express**, as well as managing databases with **MongoDB**. Through project-based learning, I enhanced my problem-solving abilities, improved debugging skills, and developed a strong understanding of agile methodologies, teamwork, and version control systems like Git.

EDUCATION

Bachelor's of computer application (Hons.)

Devi ahilya university Indore

📅 08/2019 - 06/2023

Higher secondary education

Govt. Jiwajiroa hr. sec. school

📅 2018 - 2019

KEY ACHIEVEMENTS

💎 **HacktoBerFest**
Successfully completed hacktoberFest

💎 **Coding**
solved 300+ question on different platform

SKILLS

React   Expressjs   nodejs   java   springboot   mysql   mongodb   operating system   networks

HTML   CSS   Bootstrap

PROJECTS

Artstore

🔗 https://artstore3.vercel.app

Developed and managed an e commerce application providing service in authentic Indian traditional art, featuring diverse styles like Madhubani, Warli,Miniature and many more.

- Technology used : FULL MERN STACK

Globeshare

🔗 https://globeshare.vercel.app

Built a dynamic social media platform using React and firebase, featuring user authentication, real-time posts, likes, and comments. optimized database queries for seamless performance.

- Technology used : React and firebase
